

LAURA KELLER, RN, NAMED WELLMED NURSE OF THE 1ST QUARTER

Congratulations to Laura Keller, RN, WellMed Nurse of the 1st Quarter. Laura is a case manager at WellMed at Brandon Regional in Brandon, Florida.

In addition to providing patient care, Laura trains and mentors other nurses, serves as assistant to market nurse leader Ethel “Merie” Bridges, pitches in when other clinics need a hand and assists with clinic walkthroughs to help staff prepare for their biannual patient health and safety assessment (PHSA).

Last year, Laura came up with an idea of how to bring together area youth and the clinic’s older adult population by organizing a school supplies drive, and she continues to look for ways to help WellMed participate in the community.

Laura completes each task with patience, a positive attitude and a smile. She is truly a leader and team player who displays compassion, performance, innovation and integrity every day.
